Sheppard Homans, Vice-President of Provident Savings Life Assurance Society: "Dear Sir: After examining, with much care, the circulars and papers which you kindly sent me weeks since, I am convinced of the justness of the criticisms which you make upon the old methods of surance. I have concluded, therefore, to drop a policy which I hold in one of the oldest companies, o take in its stead a larger policy in the Provident Savings Life Assurance Society. Enclosed ill please find the application duly filled out. I am confident that the important reforms which you are their into life insurance will secure to you a large patronage from the insuring public.

PREFACE.

The Albany Directory having first made its appearance in the year 1813, we cannot therefore now claim the publication to be a century old; but as the present year is "The Centennial" one of our National Independence, we see no reason why we may not, as others do for other things, call this number "The Centennial" issue, and thus give to it by this extra title, that wonderful perfectness which these words of late are made to imply. That this "Centennial" issue, for accuracy and completeness, is far superior to either of

That this "Centennal" issue, for accuracy and completeness, is far superior to either of its predecessors, and justly entitled to all the praise that any one thing is, over another of its class, there is in our minds not the least doubt. In the multitude of names and figures, however, which almost exclusively go to make up a work of this kind, we should have accomplished a miracle, had we completed the work without making any errors or omissions. It is, therefore, not only possible, but quite probable that some of both may occur; although we confidently believe these will not be found, either many or important.

To the public generally who have aided our canvassers in collecting the names and other material for the work, we return acknowledgments and to our numerous Evicade and

material for the work, we return acknowledgments, and to our numerous Friends and Patrons who have so generously favored us with their more substantial aid, we hereby return our most cordial thanks. Hoping that at no distant day, very many more of our business men who so frequently have occasion to consult the pages of the Directory, thereby reaping its benefits, and who annually decline to become one of our patrons, may be made (voluntarily or otherwise) to more fully realize the great obligation which they are under to both Our Patrons and Ourselves.

Changes made in Compiling this Volume.

Names in Directory of 1876	29.867
Names in Directory of 1875	28,698
Increase from 1875 to 1876	1,169
New Names added in preparing Directory of 1876	6,950
Names erased in preparing Directory of 1876

Whole number of Additions and Alterations in preparing this edition	21,584

Of the 28,698 names that were printed in the Directory of last year, only 7,215 remain in this issue without some alteration. By comparing these figures it will be seen that, on an average, only one name to about every four of those in the last year's edition, remains the same in this.

From Alfred L. Loomis, M. D.

Professor of the Theory and Practice of Medicine in the University of New York, President of the New York Pathological Society, etc.

During my whole professional life I have been accustomed to use freely the Water of Congress and Empire Springs. About six months since, accidentally, I was furnished with a few bottles of the "Excelsior" Spring Water, and found it so much more agreeable to the taste and pleasant in its effects than either Congress or Empire Water, that I have since used it myself, and recommend it to patients requiring a gentle Cathartic and Diuretic.

Analysis of the Union Spring Water.

Laboratory of the School Mines.

Total Solid Contents.... Carbonic Acid Gas in .. 701,174 Grains one gallon...... 384,969 Cu. ins. Temperature.... 48 deg. Fahr.

This water is of excellent strength. It is especially noticeable that the ratio of Magnesia to Lime is unusually large, which is a decided advantage.
